CARRIER OBJECTIVE

Detail-oriented IT Master's graduate with experience in building secure, scalable, and responsive web applications using modern technologies like Angular, Node.js, and MongoDB. Interested in full-stack development and excited to work on innovative projects while improving technical and problem-solving skills.

WORK EXPERIENCE

Infogird Informatics Pvt. Ltd – Chha. Sambhajinagar

10/2024 – Present

MEAN Stack Developer (Full Time) :

- Developed secure and responsive fintech web applications using MongoDB, Express.js, Angular (v18), and Node.js.
- Built scalable micro-frontend applications with Angular Elements and Webpack Module Federation for reusable components.
- Building and optimizing RESTful APIs for enhanced performance and seamless integration with third-party services. Implemented advanced security features like OAuth, JWT authentication, data encryption, and two-factor authentication (2FA).
- Collaborating with cross-functional teams to design new features that improve user experience and performance.

Galaxy Fintech Pvt. Ltd – Chha. Sambhajinagar

04/2024 – 10/2024

MEAN Stack Developer (Intern) :

- Assisted in developing responsive web applications utilizing MongoDB, Express.js, Angular, and Node.js.
- Contributed to building modular and scalable components for the fintech platform.
- Gained hands-on experience in implementing user authentication and authorization using JWT and OAuth.
- Designed secure APIs for core fintech functionalities, ensuring compliance with industry standards.
- Worked with the team to troubleshoot and optimize performance issues, achieving a 25% improvement in API response time.

TECHNICAL SKILLS

-
- HTML, CSS, JAVASCRIPT, BOOTSTRAP, TAILWIND, MUI, REACT, REDUX, RTK-QUERY, MERN, MEAN, ANGULAR, PHP, NODE. JS, MONGODB.
 - MySQL & MongoDB Database: Strong knowledge of designing and managing relational databases, writing complex queries, and optimizing database performance.
 - Front-End Development: Experience with HTML, CSS, JavaScript, and frameworks like Bootstrap for creating responsive and visually appealing user interfaces.

PROJECTS

Portfolio– (MERN Project)

- Increased online visibility and received positive feedback, leading to networking opportunities and collaboration requests.
- Built a dynamic platform using the MERN stack and Tailwind CSS, featuring a Node.js backend and MongoDB for performance and scalability.
